### HALL CLOSET

- Replace ceiling light with new one and add a switch.
- Fill in the window with drywall.
- Install double hanging closet organizer on north wall.

## SCOPE OF WORK

### EAST (PRIMARY) BEDROOM

- Install door on east wall, going to bathroom.
- Install cable and electric on east wall.
- Closet: install 6 shelves on east wall.
- Install 6' SS closet organizer on back wall.
- Install new ceiling fan/light with one switch (no re-mote)
- Install two wall sconces with a switch dimmer.
- Make 2 outlets USB compatible.

DOOR CASING

### WEST BEDROOM

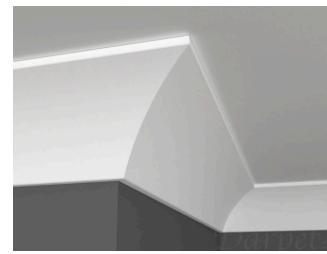

- Install cable and electric at 54" on the north wall.
- Install ceiling fan/light with one switch (no remote).
- Replace closet ceiling light and add a switch.
- **Closet:** Make door 24" and push it as far north as possible. Install six 12-13" shelves on south wall. Install double hanging on the west wall.
- Add wall sconces with dimmer on wall lower.
- Make one of the outlets USB compatible.

DOOR STYLE

### LAUNDRY/HVAC/ HOT WATER HEATER ROOM

- **Old Scope:** Wrap and Insulate water pipes. Insulate the wall to insure the pipes do not freeze. Note that the plumbing for the washer and dryer are on an exterior wall and therefore it is essential that we do ev-erything possible to avoid frozen pipes. Will open wall, remove old insulation and spray foam new.
- Install new stacked washer and dryer.
- See where we can install shelves.
- Replace ceiling light with circular one.
- Add doors going to the HVAC/Hot water heater area.
- Install same porcelain tile that we used in the kitchen.
